

MANISHA NURSING INSTITUTE

PROSPECTUS

2022 - 2023

ABOUT US

Its lush green campus and its ambiance is pertinent for Education and Medical Services. So, keeping in mind the present pandemic scenario the Foundation plans to establish a Nursing Institute which will educate and facilitate nurses to meet diverse patients' needs; and to provide them quality advanced care. Foundation (Trust) wants to provide GNM nursing course to nursing enthusiasts, who in hour of need will provide efficient service to the nation.

It is located, just beside N.H Road, in Rajbandh, Durgapur, Paschim Barddhaman here we surveyed high demand for GNM nursing course. Enthusiastic students show high interest in this field and to satiate their demand we plan to provide them the necessary facilities and thus, pave their way to their success. Due to the present pandemic we are all well aware of the recession in other fields and the growing demand of medical personalities, so here the trust plans to provide the required infrastructure and modern education to the students who dream to choose the noble profession and serve the nation with proper knowledge and care.

Thus, Foundation (Trust) aims to cater both the growing needs of our local & outskirts students and also the present demand of quality nurses. To serve the nation is our prior concern and for this the Rahul Foundation Trust proposes to set up a Nursing institute and provide modern educations and advanced amenities to the future nurses.

- Ability to transfer understanding of life style and related factors that affect health of individuals and groups;
- Ability to provide nursing care to recuperating, critically ill and terminally ill patients;
- Develop skills of critical thinking in making decisions in handling difficult situations while giving care to patients;
- Ability to grasp knowledge and skill in operating of the new generation medical equipments;
- Ability to provide promotive, preventive and restorative health services in line with the National Health Policies and Programmers.
- Acquire skill of effective communication with individuals and groups and members of health team in order to promote sustained interpersonal relationship and team spirit;
- Acquire skill sets to teach individuals and groups in clinical/ community health settings;
- Ability to participate effectively as member of a health team in health care delivery system;
- Ability to demonstrate leadership and managerial skill in clinical/ community health settings;
- Ability to conduct need based research studies in various settings and utilize the research findings to improve the quality of health care management system;
- Develop awareness, interest for continual learning and skill development and thereby contribute towards development of self and the profession.

Career in Nursing

Trained nurses help people in every walk of life. Mostly, we see nurses working in hospital settings giving care to ill patients. However, from world wide experience, it is seen that in nursing, career can take many forms apart from working in a hospital, which includes work in doctor's chambers, clinics, schools, prisons, corporate houses, insurance companies, home nursing, counseling amongst others. Nurses help individuals from before birth to the time of death, and even help family members cope with the loss of a loved one after death. Nurses are there for almost every imaginable situation involving the health or illness of a person.

After completion of Diploma level program, a competent student may pursue graduate, post-graduate and doctorate level courses in a variety of clinical and social disciplines.
